

Did you know that **BT is about to disconnect all landlines** and has begun the process already, putting your business **communications at risk?**

Convergence Communications Has The Answer.

Get ahead of the curve and **avoid the backlog**

Eliminate any disruption to your business.

Install a **state-of-the-art telephone system** and speed up your **broadband.**

[Click Here To Book A No Obligation Call](#)

Take advantage of our fixed prices for as little as **£8 per month per user, including free calls to all UK numbers.**

Upgrade your broadband, completely future-proof your business.

Guaranteed to increase your flexibility, dependability, and save you money.

Are You Paying **Too Much** For An **Unreliable** Phone Service?

There's nothing worse than using an unreliable telephone service to run your business. Except if that poor phone service climbs in price each month. Are your phone bills increasing on a regular basis?

We can help. With Convergence Communications you pay a fixed monthly fee for your telephone system, plus you can enjoy free calling across the UK. It's that simple. No more nasty surprises each month when you open your phone bill. Convergence phone systems just work, without the frustration of paying too much to a telephone provider that doesn't live up to your expectations and business requirements.

Enjoy a **Stress-Free Transition** To Your New Phone System

If your telephone system is painful to operate, unreliable and expensive, it's time to make a change. It can be intimidating to switch communication providers, but we want to reassure you that you're making the right decision by upgrading to a smart cloud telephone solution that will better serve your patients in the long run.

At Convergence Communications we can help you switch phone systems with ease over just two days, with NO disruption to your current telephone system. It's a win-win for both you and your patients!

It's Time To **Level-Up** to a Smart Phone Solution

When your team is busy answering calls from your patients, the one thing you don't want them to do is to have to put the patient on hold while they go dig for patient information.

With our smart cloud solutions and seamless integration into SystmOne for healthcare, your patients' details will pop up automatically the moment they call your office. It's the magic of working with a Convergence Communications telephone system. Your team members will thank you!

Giving You **Tech Support** You'll Love

When a new system is first integrated into your business, you're going to have a lot of questions. That's where our highly-trained support team comes into play. Our skilled & friendly support team is here to answer your questions as you make Convergence Communications an integral part of your business. From simple queries to complex technical support inquiries, you can depend on Convergence Communications from start to finish and beyond.

Check out this testimonial from one of our happy clients:

"The removal of the old system and the installation of the new was done quickly and efficiently with the on-site training particularly thorough. Any queries regarding the phone system following the installation have been addressed promptly by Convergence." - St. Mary's Surgery - Cambridgeshire

"Reliability is the first thing that comes to mind. The benefit to my business is the simplicity and ease of use."

Richard Lemming
Goddards Estate & Letting Agents

"Immediate responses to any request. "

Des Crane
Boast International

"When we've had a breakdown, they react quickly and get things up and running for us. We've been with them for possibly up to 10 years now."

Alison Law
Royce Group

"When I've contacted them, they've been reliable and quick to respond. Moving to Convergence improved customer satisfaction levels."

Owen Pennington
GF Machining Solutions

"Convergence has provided our surgery with telephony service for several years. We recently upgraded from an NEC phone system to their recommended cloud solution, Wildix. This combined with a move into temporary premises could have caused us problems. Especially as our plans changed frequently. However, Convergence accommodated every request and worked around these changes. "

St Mary's Surgery - Cambridgeshire

Bourn Hall

FERTILITY CLINIC

"Bourn's Wildix is running well and receiving good feedback from 99% of users. We have also been very impressed with the levels of support provided by your team. The Business Support Director also agreed 'Yes I agree, thanks Oliver, it's working well.'"

Bourn Hall - Fertility Clinic

The Spinney Surgery

Ramsey Road, St. Ives, Cambridgeshire, PE27 3TP

Everything (and everyone involved) was perfect, and I couldn't speak more highly of the team (especially Lauren and Hannah who were awesome!)As you can imagine, we're stupidly busy but I felt it important to take the time to thank you all so much for your help. The communication during the installation process was so thorough, I knew what was happening every step of the way. As a busy GP surgery, the idea of mass upheaval or large-scale change can be quite daunting.

Installing a new telephone solution with a complete change of infrastructure is something we thought long and hard about. From the initial enquiry to the continual support today, all of the staff at Convergence have been nothing short of outstanding. They are accessible and available at any time to answer any questions we may have. And any requests are always actioned swiftly. The whole installation process was very easy from a consumer point of view, and Convergence undertook most of the work saving us valuable time. They accommodated the ever-changing schedule of surgery and were incredibly patient and flexible working around us. The installation was completed over a lunch break and had minimal to no impact on the running of the surgery. This was fantastic as we were able to carry on taking calls and contacting our patients.

I couldn't recommend Convergence highly enough; they've been supportive and helpful, and not only have they provided a fantastic telephone system that meets all the needs of the practice, but they also provide an excellent customer support team from a friendly and helpful team.
